“A learning organization is an organization that is continually expanding its capacity to create its future.”

Peter M. Senge

“Styringsparametere gir normalt en indikasjon på resultater, som må fortolkes og vurderes kvalitativt.”

DFØ veileder 2006

“Our worth [as evaluators] is to be judged by use. Evaluations are to help improve programs, help make programs more effective, and provide information for decision-making. That is use. That is our accountability.”

Michael Quinn Patton

“A final precondition for learning is that the efforts to generate learning within an organization have no conclusion. There is no finishing line”

Ray Rist
